

e mission impossible  
is now possible.

How? Simple.

Innovate. Engineer. Waste no waste. Recycle. Such ideas  
when put into practice pay. Yields results. This is no gas.

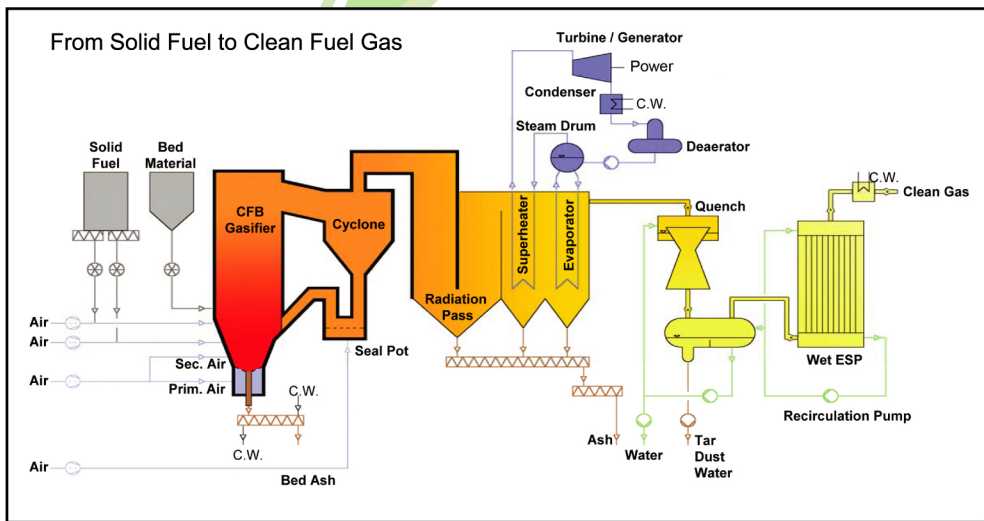

This is about cost saving. It is imaginative engineering at its best .

Clean effort sans pollution. Brought to you by us, along with

Envirotherm, one of the world leaders in gasification.

What next?

Let us talk, for a better tomorrow; for all of us.

**Shriram****epc**  
Engineering the future
